

IH&CC Podcast series – Understanding Aboriginal People’s Experiences of ED Investigation for Chest Pain study – annotated reference list for resources

| TITLE | MEDIUM and LENGTH | BRIEF DESCRIPTION | ED SPECIFIC? | LINK |
|--|-----------------------------|--|--------------|---|
| Gray C, Brown A, Thomson N (2012) Review of cardiovascular health among Indigenous Australians. Retrieved [13 Mar 2014] | Online review | This report provides a detailed review of the cardiovascular health of Indigenous people that is a valuable up-to-date overview for people working in the area and assists in the development/refinement of policies, strategies and programs. | No | http://www.healthinonet.ecu.edu.au/chronic-conditions/cvd/reviews/heart_review |
| Artuso, Stella, et al. "Factors influencing health care utilisation among Aboriginal cardiac patients in central Australia: a qualitative study." <i>BMC health services research</i> 13.1 (2013): 83. | Research article 13 page | This study identifies the ecological factors influencing health care utilisation (HCU) amongst Aboriginal cardiac patients from the perspectives of: a) Aboriginal cardiac patients, b) non-cardiac community members who supported Aboriginal family members with CVD, and c) health care providers and community researchers. | No | http://link.springer.com/article/10.1186%2F1472-6963-13-83#page-1 |
| Bradshaw, Pamela J., et al. "Coronary heart disease events in Aboriginal Australians: incidence in an urban population." <i>Med J Aust</i> 190.10 (2009): 583-586. | Journal article 4 page | The aim of this study was to determine the incidence of cardiovascular events in a cohort of urban adult Aboriginal people without known CHD (coronary heart disease). This report details the research findings. | No | https://www.mja.com.au/journal/2009/190/10/coronary-heart-disease-events-aboriginal-australians-incidence-urban-population |
| Lawrence, Monica, and Zell Dodd. "Improving the patient journey: Achieving positive outcomes for remote Aboriginal cardiac patients." <i>Improving the Patient Journey: Achieving Positive Outcomes for Remote Aboriginal Cardiac Patients</i> (2009): vi. | Research paper 32 page | This research paper suggests that to improve the fit between Aboriginal patients health/cultural requirements and the clinical environment the answer lies, in part, in a series of small, simple but effective steps such as putting in place dedicated liaison officers at key points within the healthcare system, improving the operation of PATS, and funding a better in-hospital interpreter service. | No | http://www.svhm.org.au/aboutus/community/ICHPToolkit/Documents/Toolkit%20documents/Improving-the-Patient-Journey.pdf |

Note: Links to the Principles document and research paper referenced in the podcast will be provided once published.
